

# Hydronic Balancing Solutions

Jomar Hydronics is a leading provider of quality, innovative and energy efficient hydronic balancing products for the HVAC industry. We specialize in pre-assembled coil piping packages, components and accessories for pressure Independent, automatic or manual balancing applications.

Our experienced sales and technical support staff are available to assist you in selecting the best balancing solution that fits your project needs.

Jomar Hydronics' complete line of hydronic balancing kits and components are designed to meet your system design conditions to produce a balanced system. The result is a superior system that provides both a comfortable and energy efficient climate.

## Terminator PICV

Pressure Independent Control Valve

1/2" - 3/4" \*

3/4" - 1-1/4" \*

1-1/2" - 2"

2" - 6" \*

- Differential Pressure Regulator
- External Flow Presetting Dial
- Axial Control Valve\*
- Location Tag
- PT Ports
- 360 WOG
- Control Range: 5 -60 PSI

Pressure Dependent	Field Adjustable	Constant Flow	Pressure Independent	Auto Temp Control
	✓	✓	✓	✓

## Terminator A

Automatic Balancing Valve

1/2" - 2" \*

2-1/2" - 8"

- Automatic Flow Cartridge
- Integrated Ball Valve\*
- Union\*
- PT Ports
- Location Tag
- 600 WOG

Pressure Dependent	Field Adjustable	Constant Flow	Pressure Independent	Auto Temp Control
		✓	✓	

## Terminator B

Venturi-Fixed Orifice Balancing Valve

1/2" - 2" \*

2-1/2" - 8"

2-1/2" - 8"

- Venturi - fixed orifice
- Integrated Shut-off Valve
- Memory Stop
- Union\*
- PT Ports
- Location Tag
- 400 WOG

✓ Also available in Lead Free

Pressure Dependent	Field Adjustable	Constant Flow	Pressure Independent	Auto Temp Control
✓	✓			

## Terminator G

Fixed Orifice - Globe Style Balancing Valve

1/2" - 2"

2-1/2" - 12"

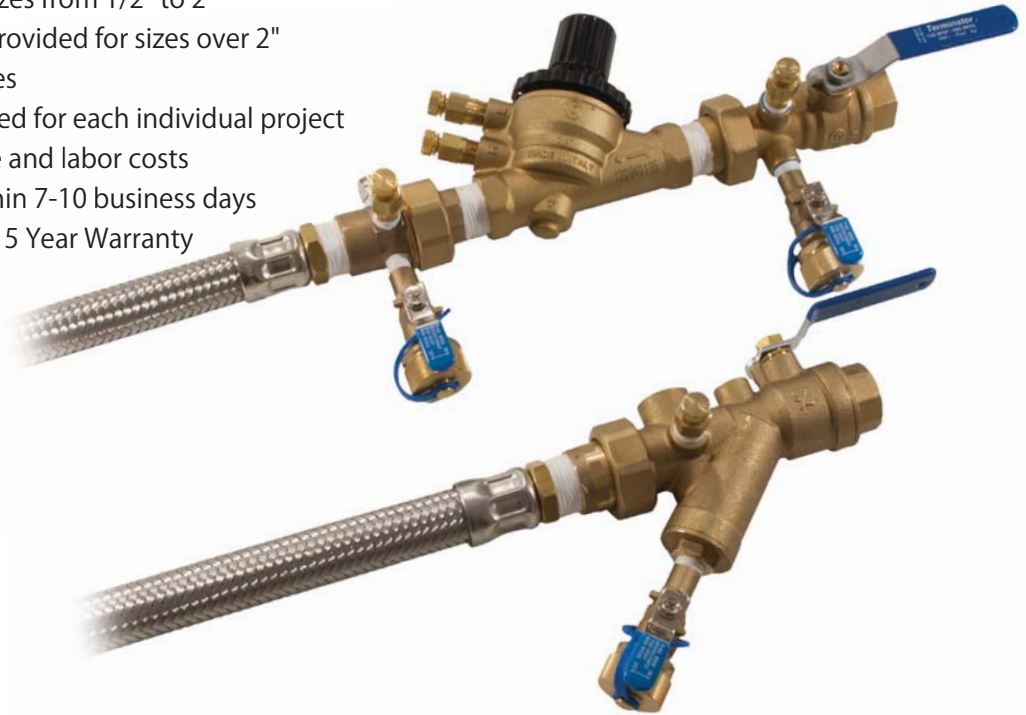

- Venturi - Fixed orifice
- Integrated Shut-off Valve
- Memory Stop
- PT Ports
- Location Tag
- ANSI Class 150

Pressure Dependent	Field Adjustable	Constant Flow	Pressure Independent	Auto Temp Control
✓	✓			

# Coil Kits: Features and Benefits

The Jomar Hydraulics offers completely customizable balancing valve packages that meet the unique needs of every application and system design.

- PICV, Automatic, and Manual balance valve solutions
- Assemblies available in sizes from 1/2" to 2"
- Individual components provided for sizes over 2"
- Wide variety of accessories
- Tagged, bagged and boxed for each individual project
- Reduced installation time and labor costs
- Standard orders ship within 7-10 business days
- Backed by Jomar Group's 5 Year Warranty
- 100% tested

# Package Design Software (PDS)

PDS is an interactive tool designed to configure coil-piping packages and hose kits. This real time, step by step drawing tool drastically reduces the take-off process by interactively creating a drawing, quotation, and spec submittal, all through a simple point and click application.

To streamline the ordering process, simply attach your PDS file as an email attachment to Jomar Hydraulics.

For a closer look please visit [www.jomarhydraulics.com/pds](http://www.jomarhydraulics.com/pds)

Tag	Pipe size	GPM	Title	Quantity	Multiplier	Divisor	Unit price	Net price	Comment

## Unions

**Terminator U**  
Union with PT Port

## Meter Station

**Terminator MS**  
Venturi Meter Station with 2 PT Ports

## Strainers

**Terminator S**  
Strainer & Shutoff Valve with Back Flush

**Terminator Y**  
Y-Pattern Combination Strainer & Shut-off Valve

## Control Valves and Actuators

**Zone Valves & Actuators**  
1/2" - 1"

**Globe Valves & Actuators**  
1-1/4" - 2"  
2-1/2" - 6" also available

## Hoses and Accessories

1/2" - 2" Flexible Hoses (12" - 36" lengths available)

### Other parts and accessories available

PT Ports  
Handle Extensions  
Memory Stops  
Accessory Extensions

Blowdown Drains  
Manual Air Vents  
Automatic Air Vents  
Meter Kits

Replacement O-rings  
Replacement Gaskets  
Various Ball Valves  
And More!
