

Conflict Minerals Policy Statement

Jomar Group stands by the goal of the Dodd-Frank Wall Street Reform and Consumer Protection Act in ending all violence resulting from the mining of conflict materials located in the Democratic Republic of Congo (DRC) and surrounding countries. As an industrial manufacturer distributor, we support the requirement of prohibiting the usage of conflict minerals in the form of gold, tin, tantalum, and tungsten in our products along with ensuring our suppliers adhere to this legislation.

Our commitment:

1. Support the objectives and goals of the U.S. legislation and the U.S. Securities and Exchange Commission to disclose the usage of conflict minerals within our products.
2. With due diligence, ensure the specified conflict minerals do not originate from our facilities or suppliers.
3. Require our suppliers to provide written documentation stating the metals used in our products are being sourced from mines and smelters outside of the conflict region.

Appropriate action will be taken if we determine minerals produced in our facilities or the facilities of our suppliers are considered to be non-conflict free.
