

Smart Move™ Basket Strainer

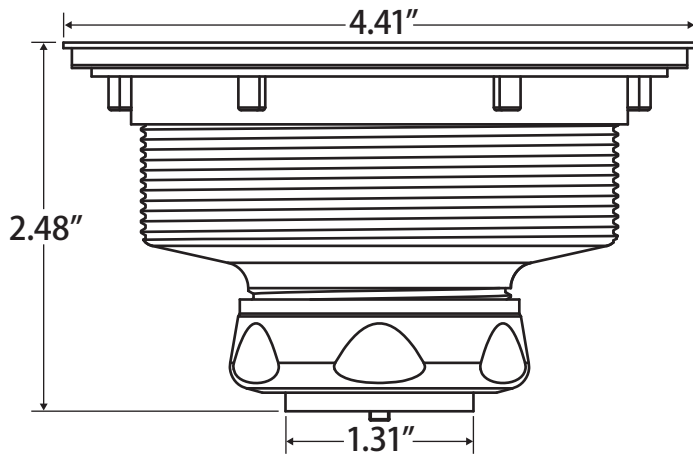

Chrome Plated Brass Sink Strainer

SS-410

With a unique post design, the Smart Move™ can easily switch from straining to a positive leak-proof seal with just a quarter-turn. Quality begins with a chrome plated brass body, hand knob, and post. In addition, we use a brass tail nut, an extra-large lock nut and a stainless steel basket. This versatile strainer is definitely a smart move.

Fits sinks which have a thickness between 1/16" and 7/8"
